# EMPLOYEE ILLNESS AND EXCLUSION LOG

HACCPPLAN-EI-01  
v1.0  
haccplan.com

One row per report. Record the decision you made and the basis for letting someone back.

|               |        |                  |
|---------------|--------|------------------|
| FACILITY NAME | PERIOD | PERSON IN CHARGE |
| <hr/>         | <hr/>  | <hr/>            |

## THRESHOLD / AUTHORITY

**Vomiting · diarrhoea · jaundice · sore throat with fever · infected wound — report and act** · FDA Food Code §2-201.11 · The Big Six diagnoses are Norovirus, Hepatitis A, Shigella, E. coli (STEC), Salmonella Typhi and non-typhoidal Salmonella. A diagnosis means notifying the health authority.

| DATE | EMPLOYEE | SYMPTOM OR DIAGNOSIS REPORTED | EXCLUDED OR RESTRICTED | HEALTH AUTHORITY TOLD? | RETURN DATE AND BASIS | PERSON IN CHARGE |
|------|----------|-------------------------------|------------------------|------------------------|-----------------------|------------------|
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |
|      |          |                               |                        |                        |                       |                  |

## WEEKLY SUPERVISOR VERIFICATION

I have reviewed this log for the period above and confirm that any out-of-range readings have a documented corrective action.

### Records retention

The FDA Food Code sets no general retention period for this log. Keep it at least as long as your health department requires — ask them, and never keep less. Treat it as confidential: it holds health information about named people.
